Supervisors approve stop signs in San Antonio Heights

SAN BERNARDINO – On Tuesday, the Board of Supervisors approved a resolution that allows the placement of stop signs at five uncontrolled intersections in the unincorporated community of San Antonio Heights.

County transportation engineers noticed view obstructions at intersections along Electric Avenue, Mountain Lane and 25th Street while they were in the field investigating an unrelated matter. The officials reviewed vehicle counts in the area and other data before recommending stop signs to increase traffic safety.

“This is a great example of how county transportation staff are proactive in their efforts to improve traffic safety,” said Board of Supervisors Chairman Paul Biane, who represents the area as the Second District Supervisor.

The Board of Supervisors approved a resolution declaring Electric Avenue, Mountain Lane and 25th Street as through highways. County regulations call for a “through highway” designation before traffic entering the roads can be required to stop.

Stop signs will be placed at the following intersections: Electric Avenue and Forman Street, Electric Avenue and 25th Street, 25th Street and Beck Street, 25th Street and Burt Street, and Mountain Avenue and Colony Drive.
